NATURAL FLAVOURS

REBATEN RICH (Glycosylated Stevia leaf extract)

- Excellent sweetness quality/profile
- Outstanding solubility
- Thermal and pH stability

REBATEN G1 (Glycosylated Stevia leaf extract)

Excellent sweetness quality/profile
Outstanding solubility
Thermal and pH stability

REBATEN G180 (Glycosylated Stevia leaf extract)

- Excellent sweetness quality/profile
- Outstanding solubility
- Thermal and pH stability

REBATEN PREMIUM (Glycosylated Stevia leaf extract)

- Excellent sweetness quality/profile
- Outstanding solubility
- Thermal and pH stability

SWEETENERS

STEVIA LEAF EXTRACT, 97% of Rebaudioside A

- Intense natural sweetener (320 x more than sugar)
- High purity
- Taste masking

STEVIA LEAF EXTRACT, 60% of Rebaudioside A

- Intense natural sweetener (260 x more than sugar)
- High purity
- Taste masking

TITANIUM DIOXIDE

FREE FILM COATING SOLUTIONS

READY-TO-USE MOISTURE PROTECTIVE FILM COATING AGENTS

Provides different levels of protection:

- Enhanced moisture protection: LP 010, LP 014
- Extreme moisture protection: LP 030
- Helps to improve the physical properties of the core

NATURALLY COLORED PW, Film coatings naturally colored without titanium dioxide or aluminium lakes

- Give natural bright color
- Pigment from coloring foodstuff (vegetable, fruit, plant, algae)
- Clean Label
- 5 Colors available that can be mixed to achieve more variations: Blue, Yellow, Green, Red, Pink

WHITE TITANIUM DIOXIDE FREE FILM COATING

- Opacifying properties
- Whitening properties

AESTHETIC, READY-TO-USE AND GASTROSOLUBLE FILM COATING AGENT

- Enhance film adhesion
- Fast dispersion in water

COLORING SYSTEM

9 Titanium-dioxide free references:

- with lakes: Pink C, Blue I, Red P
- with soluble dyes: Green C, Yellow R
- with iron oxide: 5901 Brown, Black F, Red F, Yellow F

FUNCTIONAL EXCIPIENTS

CO-GRANULATION OF XANTHAN UND ACACIA GUMS

- Sustained release for tablets and hard capsules
- Excellent compression behaviour
- Excellent flowability
- Clean Label
- From natural origin

MULTIFUNCTIONAL EXCIPIENT FOR DRY ORAL FORMS

- Partially pregelatinized starch
- Binder for direct compression
- Flowability agent
- Disintegrant

POLYSORBATE 80 FROM OLIVE SOURCE (FOOD)

- Emulsifier
- Solubiliser
- Stabilizer

MICROCRYSTALLINE CELLULOSE

- Extreme compatibility
- Optimal flowability

CO-CRYSTALLIZED INGREDIENT CONTAINING SUCROSE MALTODEXTRIN

- Emulsifier
- Solubiliser
- Stabilizer

HIGH QUALITY COMPRESSIBLE MINERALS

CALCIUM CARBONATE 90 SE/E

- Filler for direct compression
- Innovative excipient obtained by spray drying
- Composed of 90% calcium

HEAVY MAGNESIUM OXIDE Marine origin (Japan)

- Directly compressible
- Optimal flowability

MAGNESIUM CARBONATE

- Filler for direct compression
- Optimal flowability
