Leads Sal Group with technical excellence and a strong international supplier network.

Your added value with Sal Group

1

Trustworthy

A reliable partner with the highest standards in quality, reliability and innovation – long-standing experience and deep understanding of your industry's requirements.

2

Extensive product range

High-quality raw materials meeting the strictest international norms. Close partnerships with leading manufacturers ensure constant availability and variety.

3

Efficient & reliable

Smooth supply processes and excellent service. Our dedicated team ensures you always receive the right raw materials at the right time.

Three competencies, carefully combined

With passion, dedication and professionalism we cover the entire value chain – from raw materials and finished products to consulting.

1

Sal – Ingredients

Sourcing & distribution of pharmaceutical, chemical, cosmetic and nutrition-focused raw materials.

2

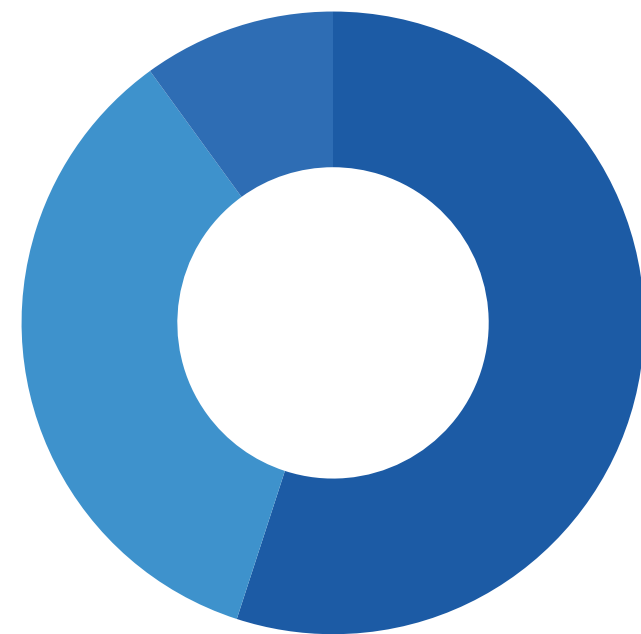

Sal – Pharma

Finished supplements & medical devices for human and veterinary medicine.

3

Sal – Consulting

Advice on raw-material use, regulatory affairs, process optimisation and contract manufacturing.

Distribution of our service focus

Your key to high-quality raw materials

A competent partner for raw materials in Switzerland and abroad – from active ingredients to specialities, always to the strictest quality standards.

P

Pharmaceutical raw materials

From active ingredients (APIs) to excipients for demanding pharmaceutical applications.

C

Chemical raw materials

A diverse portfolio meeting the strictest quality standards.

K

Cosmetic raw materials

High-quality ingredients combining innovation and quality for cosmetics.

F

Food & supplements

A comprehensive range of raw materials for food and supplements at the highest level.

SAL – PHARMA

Finished products for human & veterinary medicine

Your reliable Swiss partner for high-quality supplements and medical devices – with our own web shop and direct delivery to practices.

1

Outstanding product quality

Highest quality and purity standards – from raw-material selection to the finished product.

2

Efficient distribution

Via wholesalers and – thanks to our MedServe AG cooperation – directly to practices through our web shop.

3

Comprehensive practice support

More than products: training, resources and information for everyday practice.

4

Innovative solutions

Forward-looking innovation in close collaboration with experts and manufacturers.

5

Sustainable commitment

Eco-friendly suppliers, resource-efficient processes and social responsibility.

Your advisory partner for success

Three steps to sustainable success – we identify the optimal raw materials, optimise processes and guide strategic decisions.

1

Raw-material expertise

With deep know-how we identify the right raw materials and apply them optimally.

2

Excellence in process optimisation

We analyse your workflows and develop tailored strategies for greater efficiency.

3

Strategic business consulting

Support with strategic decisions, regulatory affairs and finding the right contract manufacturer.

A portfolio for every requirement

From active ingredients to specialities – our broad range covers the needs of pharma, food and cosmetics.

Active Ingredients (APIs)

Branded Ingredients

Carotenoids

Chemicals

Essential Oils

Excipients

Gelatine

Mineral Salts

Vitamins

Supplements

Strong brands, exclusive to Switzerland

As the Swiss distributor of renowned international manufacturers, we bring leading brands and specialities to the local market.

Divi's Nutraceuticals

Carotenoids & nutraceuticals for human, pet and animal nutrition.

Düllberg Konzentra

Essential oils in pharma, food and feed grades.

Eurochem

Exclusive distribution of high-quality branded ingredients in Switzerland.

EWALD Gelatine

Gelatine solutions in powder and speciality grades.

medServe

Direct, efficient delivery to human & veterinary practices.

OmniCap

Exclusive GDP-compliant active-ingredient supply in Switzerland.

Seppic

Active ingredients & specialities for cosmetics and nutrition.

Transo-Pharm

Broad portfolio of pharmaceutical active ingredients (APIs).

Core competencies for industrial customers

For industry

Industrial customers in pharma, food and cosmetics gain technical depth, verified quality and a single reliable point of contact.

Cross-sector expertise

Know-how in pharma, chemicals, cosmetics and food from one source.

Verified quality

Raw materials meeting the strictest international norms and purity standards.

Security of supply

Constant availability through a strong manufacturer network.

One point of contact

Personal service, short routes and 24/7 availability.

The right Swiss distributor for you

For partners

International manufacturers gain in Sal Group an established partner for market entry and distribution in Switzerland.

Direct market access

An established customer base across industry, pharmacies and practices.

Regulatory competence

Confident navigation of Swiss requirements and approvals.

GDP-compliant logistics

Seamless, quality-assured distribution for sensitive products.

Proven track record

Exclusive distribution mandates for leading international brands.

Your sourcing partner for every solution

We find the right raw material for every project – and accompany you from the first idea to realisation.

Global sourcing network

Access to first-class manufacturers worldwide.

The right solution

Identifying the right raw material and valid alternatives.

Second-source security

Reducing dependencies through additional supply sources.

From sample to production

Scaling and support across the entire project lifecycle.

Quality you can rely on

GDP-compliant supply chain

Active-ingredient supply under Good Distribution Practice – e.g. in cooperation with OmniCap.

Pharma-grade quality

Rigorous quality controls from raw-material selection to the finished product.

Verified manufacturers

Close partnerships with renowned, certified producers.

Sustainability

Eco-friendly suppliers and resource-efficient processes.

Your edge with Sal Group

1

Comprehensive expertise

Deep know-how across all relevant industries.

2

Global network

Access to optimal resources and first-class manufacturers.

3

Flexibility

Tailored solutions for your individual challenges.

Together for a successful and sustainable future.

Let's talk about your project

Sal Group is actively seeking new partnerships – we look forward to your requirements.
